Support is one call away

The Referral Hotline is a dedicated service for GPs and healthcare professionals to refer their patients to a Circle Health Group hospital. We offer three routes for referral, including a freephone number, secure email address, and fax number.

Our Hotline advisers are trained to receive dictation from you and issue a referral letter on behalf of your practice. We'll even contact your patient within one hour of the referral being received to arrange a suitable date and time for an appointment with the chosen consultant.

Easy one step referrals to Circle Health Group hospitals

Provide your
patient with a printed
referral letter
