BMI THE LONDON INDEPENDENT HOSPITAL

is part of BMI Healthcare, the UK's largest provider of independent healthcare*

At BMI Healthcare, we have over 54 hospitals and healthcare facilities nationwide. Throughout these locations, we treat more than 300,000 patients and manage over 1.5 million outpatient visits every year, offering a wealth of experience, highly complex surgery, a patient-centred approach, and access to some highly specialised consultants.

BMI The London Independent Hospital also has access to some of the latest technology and equipment, including:

- ✓ 72 beds
- ✓ Five bedded level 3 critical care unit (ITU)
- ✓ Neuro Navigation Equipment
- ✓ Three operating theatres (2 with laminar flow for specialist orthopaedics)
- ✓ Specialist Renal Care Unit
- ✓ Physiotherapy department with fully equipped rehabilitation gym
- ✓ Full range of imaging & diagnostics, including 128- slice CT, MRI, digital mammography, ultrasound and x-ray
- ✓ Specialist cardiac catheterisation suite

BMI Healthcare is proud of its consistently low hospital infection rates for MRSA bacteraemia and Clostridium difficile. This is achieved by a carefully planned regime of rigorous infection prevention policies, surveillance, training and exceptionally high standards of cleaning.

"Extremely friendly staff. Very caring and observant." - BMI London Independent patient, 2020

The London Independent Hospital

- Part of Circle Health Group -

Welcome to our Consultant Directory and thank you for considering BMI The London Independent Hospital.

By way of introduction, we're a complex care private hospital located close to the City of London, East London and Canary Wharf. Easily accessible by tube, bus and car; we're also within easy reach of Essex and the Home Counties. We have 34 inpatient rooms, 15 day-case beds, a 5-bedded ITU, 3 theatres, a JAG accredited Endoscopy suite, and a comprehensive imaging service.

We're home to an experienced team of consultants across more than 30 different medical specialties – and have particular expertise in:

- Trauma and Orthopaedics
- Sports Medicine
- Neurosurgery and Pain Management
- Gynaecology
- Endoscopy
- Neuro Cranial Surgery
- Cardiology and Cardiothoracic surgery

Did you know we have changed the design of our facilities and operating procedures to protect all patients from the risk of COVID-19?

We are pleased to inform you that we have been operating a "green site" since the onset of the virus and having treated over 18,000 patients between March and September; we have not had a patient who has contracted the virus.

We have implemented a number of enhancements to our processes with safety in mind; including onsite screening processes for everyone whom enters the building, 72-hour swabs for patients prior to procedures, asymptomatic staff testing, perspex screens in all patient facing areas, socially distanced waiting spaces, PPE worn by all staff and consultants at all times, investment in temperature checking workstations and ongoing focus on adapting our processes to protect all parties from COVID-19.

In addition to the above I expect everyone at BMI The London Independent hospital to provide the best possible service, and ensure we demonstrate adherence to our Good CQC rating.

Yours in health,

SUPPORT IS ONE CALL AWAY

The Referral Hotline is a dedicated service for GPs and healthcare professionals to refer their patients to a BMI Healthcare hospital. We offer three routes for referral including a freephone number, secure email address and fax number.

Our Hotline advisers are trained to receive dictation from you and issue a referral letter on behalf of your practice. We'll even contact your patient within one hour of the referral being received to arrange a suitable date and time for an appointment with the chosen consultant.
