

## TAKE YOUR LIFE OFF PAUSE. PAY FOR YOUR OWN PRIVATE TREATMENT AT BMI HEALTHCARE

Fast, accurate diagnosis, consultant delivered care in a safe environment and six months aftercare promise. All at a time to suit you.

We all know the NHS is under increasing budget pressure and in your local area this may mean that certain procedures are either no longer available or are restricted on the NHS. NHS restricted procedures are still available at your local BMI Healthcare hospital. And to help you access the treatment you may need we have created a fixed price package for a number of procedures. Whats more, to give you peace of mind, we will cover your aftercare for six months after your procedure.\*

You will pay separately for a private consultation to see a specialist Consultant to discuss your needs and treatment requirements; following this we will create a fixed price package for you. Here you will find some guide fixed price packages for treatments. We often see patients choosing to pay for themselves in order to access quality, fast private healthcare.

These prices are based on standard treatment pathways so until a Consultant has determined your needs we cannot confirm your final package price in case you need any additional care or a different pathway.
