

BMI Syon Clinic

Introduction

Consultants are critical to each BMI Healthcare hospital and clinic. However in common with most private healthcare operators, BMI Healthcare does not employ these consultants. Instead, consultants working in our hospitals and clinics are essentially self-employed practitioners who see and treat patients at our hospitals and clinics under the terms of our 'credentialing' or 'practising privileges' policy.

It is important that we are transparent about our relationship with our consultants and therefore via our corporate webpages and below, we have set out some of the ways in which we work together.

Higher Value Services

Consultants are charged £18 per hour for using consulting rooms at Syon Clinic, except in relation to NHS patients.

Lower Value Services

We provide a number of support services to our consultants, for which we do not make a charge. Further details are provided via our corporate webpages.

General Corporate Hospitality

At this clinic, we provide general corporate hospitality as detailed via our corporate webpages.

Financial Interests

Professor Nicola Maffulli, Consultant Orthopaedic Surgeon, owns a shockwave machine. Syon Clinic pays a charge for using this.
