

BMI The Sloane Hospital

Introduction

Consultants are critical to each BMI Healthcare hospital. However in common with most private healthcare operators, BMI Healthcare does not employ these consultants. Instead, consultants working in our hospitals are essentially self-employed practitioners who see and treat patients at our hospitals under the terms of our 'credentialing' or 'practising privileges' policy.

It is important that we are transparent about our relationship with our consultants and therefore via our corporate webpages and below, we have set out some of the ways in which we work together.

Higher Value Services

Consultants are charged £20 per hour for using consulting rooms at this hospital, except in relation to NHS patients.

Lower Value Services

We provide a number of support services to our consultants, for which we do not make a charge. Further details are provided via our corporate webpages.

General Corporate Hospitality

At this hospital, we provide general corporate hospitality as detailed via our corporate webpages.

Financial Interests

Mr Munir Ahmed, Consultant Urological Surgeon, owns an AMS Stone Light Laser; the hospital pays a charge for its use.

Mr Ahmed also owns and operates a bladder scanner at the hospital, using (and paying for) space at the hospital when doing so.

Dr Saquib Bashir, Consultant Dermatologist and Mr Alwyn D'Souza, Consultant Otolaryngologist, jointly own and operate a laser at the hospital, using (and paying for) facilities at the hospital when doing so.

Mr Christopher Steer, Consultant Gynaecologist, owns and operates a pelvic scanner at the hospital, using (and paying for) facilities at the hospital when doing so.

Mr Terry and Mr Prior, both Consultant ENT Surgeons, each own and operate a nasendoscope at the hospital, using (and paying for) facilities at the hospital when doing so.

Mr Prior also owns an audiology booth at the hospital; the hospital pays a charge for its use.

Dr Edward Langford, Consultant Cardiologist, owns and operates an ECG machine at the hospital, using (and paying for) facilities at the hospital when doing so.

Dr Adrian Fowle, Consultant Neurologist, owns and operates an EEG machine at the hospital, using (and paying for) facilities at the hospital when doing so.

Services Arrangements

Dr Mustafa Atta, Consultant Microbiologist, provides microbiology and infection prevention and control support to the hospital at a cost of £500 per month.

Questions
