## VACCINATION SERVICES

at BMI Healthcare Travel Clinics

**BMI** Healthcare

Serious about health.  
Passionate about care.

## TRAVEL VACCINATIONS

BMI Healthcare offers a comprehensive risk assessment to ensure you are given all the necessary vaccinations before you travel, as well as relevant health advice so you can stay protected and enjoy your travels.

## **TRAVEL VACCINATIONS AT BMI HEALTHCARE TRAVEL CLINICS**

When travelling the world, it is important to protect yourself from potentially serious illnesses. Certain areas of the world, including South East Asia, Sub Saharan Africa, South America and even Europe, pose a risk for tourists, overseas workers and those moving abroad. Travel vaccinations can provide protection against a wide range of diseases. The vaccines you need will depend on your destination. For other illnesses where vaccines are not available then other preventative measures should be taken.

When visiting a BMI Healthcare Travel Clinic you will receive a comprehensive service including personalised travel advice and a thorough risk assessment, whether you are travelling for business or pleasure.

Your first appointment with our nurse involves a full appraisal of your travel needs including vaccinations, a record of your vaccinations and vaccination certificates (if required) and other relevant information specific to your destination. In addition, the appointments are scheduled to allow ample time for you to ask any questions you may have about your health when travelling.

### **VACCINATIONS OFFERED**

BMI Healthcare Travel Clinic offers a range of travel vaccinations and supplements to ensure you have a safe and healthy trip. A list of standard vaccinations is adjacent however other vaccinations are available and will vary between clinics.

## THE STANDARD VACCINATIONS OFFERED INCLUDE:

- Cholera vaccine
- Diphtheria/tetanus/polio vaccine
- Hepatitis A vaccine
- Hepatitis B vaccine\*
- Hepatitis A+B vaccine
- Typhoid vaccine
- Hepatitis A and typhoid vaccine
- Rabies vaccine\*
- Japanese encephalitis vaccine\*
- Yellow fever vaccine\*\*
- Meningitis (ACWY)
- Flu vaccine

\*Three doses required for full protection.

\*\* Several countries require a certificate of immunisation before they will let you into the country. BMI Healthcare Travel Clinic can also issue a replacement yellow fever certificate.

## PAYMENT

Payment needs to be made at the time of your appointment, cash, credit and debit cards, and cheques will all be accepted.
