

How to access private healthcare

You can access treatment with BMI Healthcare either by paying for yourself or by using your private medical insurance. Follow our step-by-step process and find out just how easy it can be.

Paying for yourself

1. Call us on 0800 096 2248

We'll discuss treatment options, prices and consultants and get you booked in.

2. You'll have an initial consultation

Your consultant will be able to work with you on a diagnosis and will begin to create a bespoke treatment plan for you.

3. Pay for your treatment

We offer two flexible finance options, allowing you to spread the cost of your treatment.

Private medical insurance

1. Ask your GP for a referral

- If you already have your referral letter, please call **0800 096 3177**
- If your GP has made the referral on your behalf, a member of our team will call you directly

2. Call your private medical insurer

- Confirm with your insurer that you are covered by your policy

3. You'll have your initial consultation

Your consultant will be able to work with you on a diagnosis and will begin to create a bespoke treatment plan for you.

Terms and conditions apply.
